

Rigging the Sunfish outhaul and Cunningham. (Using 7/64" spectra line)

1) Outhaul: 3:1 purchase in the plastic end cap.

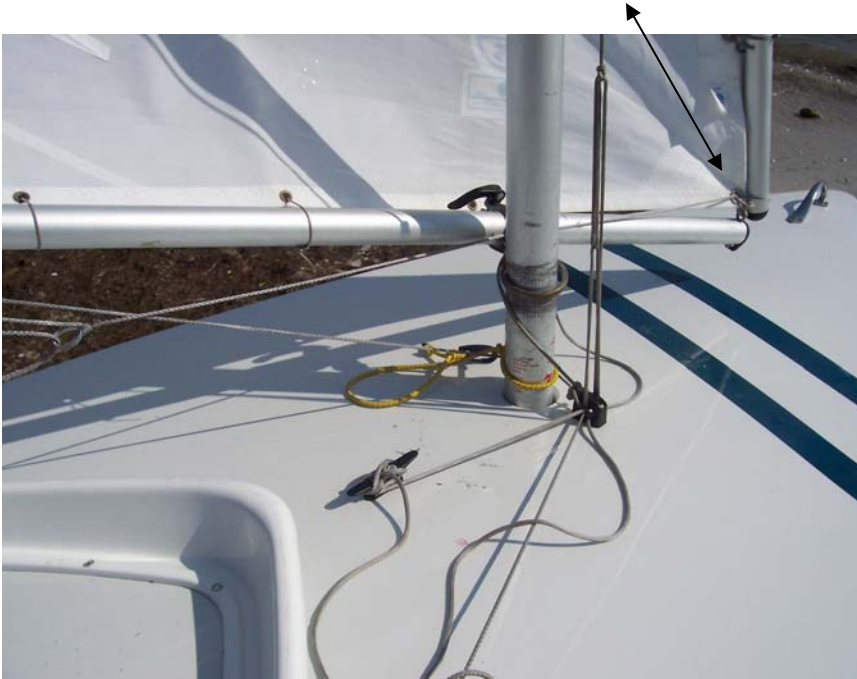

2) Outhaul: 3:1 purchase in the outhaul clamcleat.

3) Outhaul: Run the outhaul trough the 2 sails ties on top of the daggerboard. This helps keeping the slack out of the line and from snagging the centerboard.
Cunningham: : 3:1 purchase in the cunningham clamcleat.

4) Outhaul: Run the line around the mast, through the halyard eye, and tie the end in the daggerboard.
Cunningham: Lead the line from cleat to tack of sail.

5) Cunningham: Tie line on grommet (as shown) or run through grommet and tie in the stainless steel bolts for extra purchase.
